Education

Institute Of Aeronautical Engineering , Hyderabad, Telangana.	2022 – <i>Expected</i> 2026
B.Tech in Computer Science and Engineering(AI&ML)	CGPA: 9/10
Ratna Junior College , Hyderabad, Telangana	2020 – 2022
Senior secondary education in MPC	Percentage: 96.3
Kakatiya High School , Hyderabad, Telangana.	2012 – 2020
Secondary School education	CGPA: 10.0/10

Technical Skills

Languages: Python, HTML, CSS, Java (Basic), C (Basic)

FrameWorks: Scikitlearn, TextBlob, Selenium

Soft skills: Content Writing, Collaborative Skills, Interpersonal Skills, Problem Solving

Experience

Research Intern , Summer Research Internship, IARE	May 2024 - July 2024
- Developed a predictive model by analyzing comprehensive patient data to assist healthcare professionals in identifying and addressing mental health issues more effectively. - Implemented advanced data preprocessing and feature engineering techniques to improve the model's performance.	
• Technologies Used: Python, Scikitlearn, seaborn	
Industrial training , Intel Unnati	July 2024 – August 2024
- Developed a model to analyze the sentiment of intel product reviews on online product sites. - Implemented various data preprocessing and feature extraction techniques to improve the model's efficiency and performance.	
• Technologies Used: Python, Selenium, Scikitlearn	

Projects

Finding Psychological Instability Using Machine Learning , (May 2024-June 2024)	GitHub/Rohanamara
- The project uses multiple patient questionnaires to predict mental health disorders diagnosed by experts. - The project showed 91.6% accuracy using the Logistic Regression model.	
• Tools Used: Python, seaborn, scikit-learn	
Sentiment Analysis of Intel Products through online reviews , (July 2024-August 2024)	GitHub/Rohanamara
- Performed web scraping of online reviews for Intel desktop products and analyzed their sentiment. - The project demonstrates the public opinion of products through the keywords in online reviews.	
• Tools Used: Python, Selenium, TextBlob, scikit-learn	

Certifications

Google, Coursera Crash Course on Python

Python Institute, OpenEDG Programming Essentials in Python

JPMorgan Chase & Co.,Forage Software Engineering Job Stimulation

Achievements

First Prize in Tech Havoc: Won first prize at Consortium'23, IARE, for presenting an innovative tech idea.

Technex'24 Advance IOT workshop: Completed the Advanced IOT workshop organized by Technex '24, IIT Varanasi held at JNTUH on April 2024.
