EDUCATION

- Institute of Aeronautical Engineering College** Telangana, India
Bachelor of Technology - CSE(AIML); GPA: 8.88 *November 2022 - August 2026*
- Sri Chaitanya Junior College** Telangana, India
TSBIE - MPC; GPA: 97.3 *August 2020 - March 2022*
- Sri Sai Grammar High School** Telangana, India
SSC GPA: 10.0 *June 2019 - March 2020*

SKILLS SUMMARY

- Languages:** Data Science, Python, C, HTML, CSS, JavaScript, SQL, Data Structures, JAVA
- Frameworks:** Scikit, SpaCy, TensorFlow, Keras, Django, Flask, NodeJS, ReactJS
- Tools:** Visual Studio Code, Jupyter Notebook, IDLE, GIT, MySQL, SQLite
- Platforms:** Web, Windows, Arduino
- Soft Skills:** Leadership, Management, Writing, Public Speaking, Time Management

PROJECTS

- E-Hospital Website(Fortune E-Hospital):** (Frontend) Through this portal people can take benefit from the online services of hospitals. This services included in this portal are registration, appointment, fee payment etc. To provide online patient portal for delivery of citizen centric services like online appointment booking, access to lab reports online and blood availability status. To provide application related technical support to the hospitals through dedicated Call Centre/ Helpdesk. Tech: MERN Stack, HTML, CSS, JS, ReactJS, MySQL (May '24)
- Next Skills 360 Website (JPMC-CFG, NGO Foundation):** The start-up aims to teach life skills including protection against child abuse and coping with peer pressure, alongside computational skills, logical thinking, problem-solving, and coding proficiency to children belonging to underserved communities. They let the children embark on an immersive journey into the world of programming through their innovative and easy-to-use products. Tech: Python, MERN Stack, MySQL. (June '24)
- Business Strategies(ThriftTrek):** How to do budgets and forecast help for organisations. Allocate business ideas and set financial goals for the business. This is how we come up with a new idea about an app or a website which estimate the budget to start a business, to guide the people to organise their idea properly and to create a roadmap for their business ideas. Not only giving the guidance, in this app or website we can find co-partners or investors with similar thoughts. This step detailed guidance will help you to ensure a good idea from this app or a website. Tech: Frontend (September '23)
- IOT (Internet Of Things):** Hands-on exercises on voice-controlled devices with Alexa/Google Home integration. Practical solutions for controlling electrical appliances through relay modules. Gaining proficiency in data transmission through the MQTT protocol. Utilizing NodeMCU to efficiently store and manage data on Google Sheets. learned to effortlessly connect sensors, relay modules, voice assistants like Tech : Alexa/Google Home, MQTT, and Google Sheets with the versatile NodeMCU platform. (November '23)

EXPERIENCES

- JP Morgan Chase and Co.(Code for Good(CFG)):** On June 22nd and 23rd, 2024, I had the privilege of participating in the Code for Good 2024 Hackathon organised by JPMorgan Chase at their Hyderabad office. I am delighted to announce that my team, Team "MongoShake", secured the Runner-Up position in the competition. After multiple rounds of presentations and rigorous technical evaluations, our team, hashtag Team67, was honoured to be named the Runner-Up. Tech: MERN Stack, Python, JavaScript, React JS (June '24)
- Pragnya'24 IOT Workshop at JNTUH):** I recently had the privilege to participate in an enriching Advanced IoT workshop meticulously organized by PRAGNYA'24 at the prestigious Jawaharlal Nehru Technological University(JNTU) in Hyderabad on April 1st and 2nd. I'm thrilled to share my experience with you all. Over the span of two days, this workshop provided a deep dive into the world of Internet of Things (IoT), offering practical skills and knowledge crucial for mastering advanced IoT projects. Tech: Internet Of Things (April '24)
- NSIC(Data Sience using Python):** This experience has not only honed my technical skills but has reignited my passion for leveraging technology to drive positive change. Excited to carry these learnings forward into future endeavors! (June '23)

HONORS AND AWARDS

- NSIC Certification on Data Science using Python, July, 2023
- NPTEL Certification on Java - JAN-April, 2024
- Completion of Advanced IOT Workshop of Technex'24, IIT Varanasi - April, 2024
- Participation Certificate for JPMC Hackathon - June, 2024
- Runner Up at JP Morgan Chase and Co. Hackathon - June, 2024
